Pearson Education (US), United States, 2001. Mixed media product. Book Condition: New. New.. 234 x 190 mm. Language: English . Brand New Book. Writing CGI Applications with Perl is a start-to-finish guide to accomplishing key Web development tasks by fully using the power of Perl and CGI together. Using extensive examples, careful line-by-line explanations, and skill-stretching exercises, it not only provides useful cut-and-paste code: it also teaches the practical skills and techniques you ll need to build virtually any CGI-based application. Kevin Meltzer and Brent Michalski cover every key area of Web application development with Perl: database integration, form and file handling, security, e-mail, graphics, and more. The book s in-depth coverage includes: working with HTML Web forms and obtaining user input; placing cookies and tracking clicks; connecting to POP3 e-mail servers; embedding Perl in HTML using HTML::Mason; remote file management across the Web; creating dynamic images; and working with XML. The book also provides detailed explanations and examples of working with Perl DBI, as well as start-to-finish coverage of configuring and using the popular mod perl Apache module. All of the sample code will be available at a companion web site.
