## OPTIMAL CUPID MASTERING THE HIDDEN LOGIC OF OKCUPID

DOWNLOAD

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 64 pages. Dimensions: 8.0in. x 5.0in. x 0.1in. An easy-to-implement blueprint from the mathematician who reverse-engineered OkCupid and met the woman of his dreams in 90 days. Christopher McKinlay has been featured in Wired Magazine and Good Morning America for his groundbreaking analysis of OkCupid. For the first time he's showing non-experts how to turn Internet dating on its head. This concise guide will show anyone (straight, gay, male or female) the procedure McKinlay used to meet his fiancée and how the same ideas can transform their lives and bring them from browsing to contact. One summer evening while logged into a supercomputer in Colorado waiting for a large computation, McKinlay was killing time on OkC when he was troubled by a problem: what if large groups of people responded to OkCupid's personality questionnaire in statistically similar ways? He created custom software to scrape data from the site, collecting over 6,000,000 answers to OkC's match questions from more than 20,000 real users. This data made clear he'd been using the site the wrong way. Based on his findings, McKinlay (a mathematics PhD), optimized his own profile. The transformation was profound. He went from showing a match percentage of 90 with a few hundred women in the L. A. area to showing 90 or higher with over 30,000 local women. Unsolicited messages from attractive strangers began flooding his inbox. With a foreword by Jon Finkel, McKinlay's insightful how-to will teach you how to benefit from the buried statistical patterns of online romance. This item ships from La Vergne, TN. Paperback.
