In reckoning the advantages of the building, in respect to pure air, especial emphasis should be given to the commendable height of the ceilings. Each apartment has a large volume of air at its disposal, in proportion to the area of its floor; and it is obvious, that the air of a room eight or ten feet high, is much more rapidly vitiated than that of one fifteen or twenty feet high. The average proportion of atmosphere allowed to each Pupil is three hundred and forty-three cubic feet, --equal to an area of seven feet square in a room whose ceiling is only seven feet high. The High School is supported by the city at an annual expense of about twenty thousand dollars. It has a liberal course of study, running through four years, differing somewhat from a college course, but equivalent to it, and those students who complete the course receive regularly the degrees of Bachelor and Master of Arts, a charter to this effect having been granted by the Legislature, The success of the Philadelphia High School contributed largely to the establishment of the New York Free Academy, an institution of similar character, and on a still more liberal footing. Both of these noble institutions, as well as all the subordinate subsidiary schools by which they are fed, are absolutely and...
